

CASABLANCA®  
VIÑA

# NIMBUS

*Single Vineyard*

Nimbus are the clouds that hover over our vineyard every morning, keeping temperatures low and turning the Casablanca valley into the ideal terroir for the production of cool-climate grape varieties.

This line of Single Vineyard wines seeks to highlight the typicity of each varietal along with a deep impression of the terroir where it is born. This is a limited production line of carefully crafted wines that ensures consistent elegance, outstanding personality, and great complexity across vintages.
