WINEENTHUSIAST

Wine & Spirits

The structure of this wine is unusual for Maipo, where it's rare to find such a stony, intense and powerful cabernet. This has an herbal side, and it is filled with a minty and red fruits, but its main aspect is its verticality. It comes from the alluvial soils of Mariscal, on the northern bank of the Maipo River, one of the prime growing areas in the Maipo Alto zone. A wine to lay down for five years, this should evolve well.
